Consultation and Advice

ASTROTEC COMMUNICATIONS WAS OFFICIALLY LAUNCHED IN MARCH 2004 AND HAS BEEN PROVIDING END TO END UNDERGROUND PIT/PIPE AND CABLE SOLUTIONS FOR THE RESIDENTIAL AND COMMERCIAL MARKET EVER SINCE.

Our company has grown into multiple crews with a skilled team of full time cable installers working throughout Victoria.

Our company has continued to align itself with the demands of our clients and industry partners, giving us the edge over our competition and allowing us to grow whilst still providing a high level of customer service that our company has always been accustomed too.

Astrotec Communications has always had a strong working relationship with our industry partners such as ISGM, Visionstream and Servicestream.

To meet the demands of our clients needs Astrotec Communications can provide the following services:

- Pit and Pipe reticulation to new homes, multi unit development, commercial and industrial facilities, new estates, nursing homes complexes and private estates
- 3rd Party Pit and pipe design
- Commercial applications and designs for Telstra Copper services
- End to end cabling solutions for commercial projects such as main frames/pay TV
- VC81 compliance sign off for sub divisional approvals
- Consultation and advice
- Astrotec Communications are currently an accredited ISGM/Telstra/NBN supplier
- All technicians are suitably qualified
- Astrotec Communications uses the online management system, Workflow, for managing client projects and accounts
- Astrotec Communications is covered by all associated insurances including public liability to 10 million.
